## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being fully met by Kim (USP 4563933).

Kim discloses a dynamically illuminated guitar which comprises a sounding section (around 190), performance operators (strings – not numbered), light emitting section 30, light emission controlling section (Fig. 3B), and tone generating processing section (Fig. 3A).

Regarding Claims 2,3, the light emitting section 30 can be controlled according to tempo and the human operator (Col. 2 lines 52-56).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rimsa (USP 4745837), Breitweiser Jr. et al (USP 5408914),

Asahi (USP 6815599), Asahi (USP 6541688), Martinez (USP 4236191), Haake (USP 5796025), are further cited to show related teachings in the art.
